Information Center

Gives you information about Tempo, Sounds, Rhythms, Features and sends you messages. The keypad, as easy to use as a telephone, lets you dial-in Genius Voices, set volume levels, use Advanced Features and more.

PCM Digital Voices

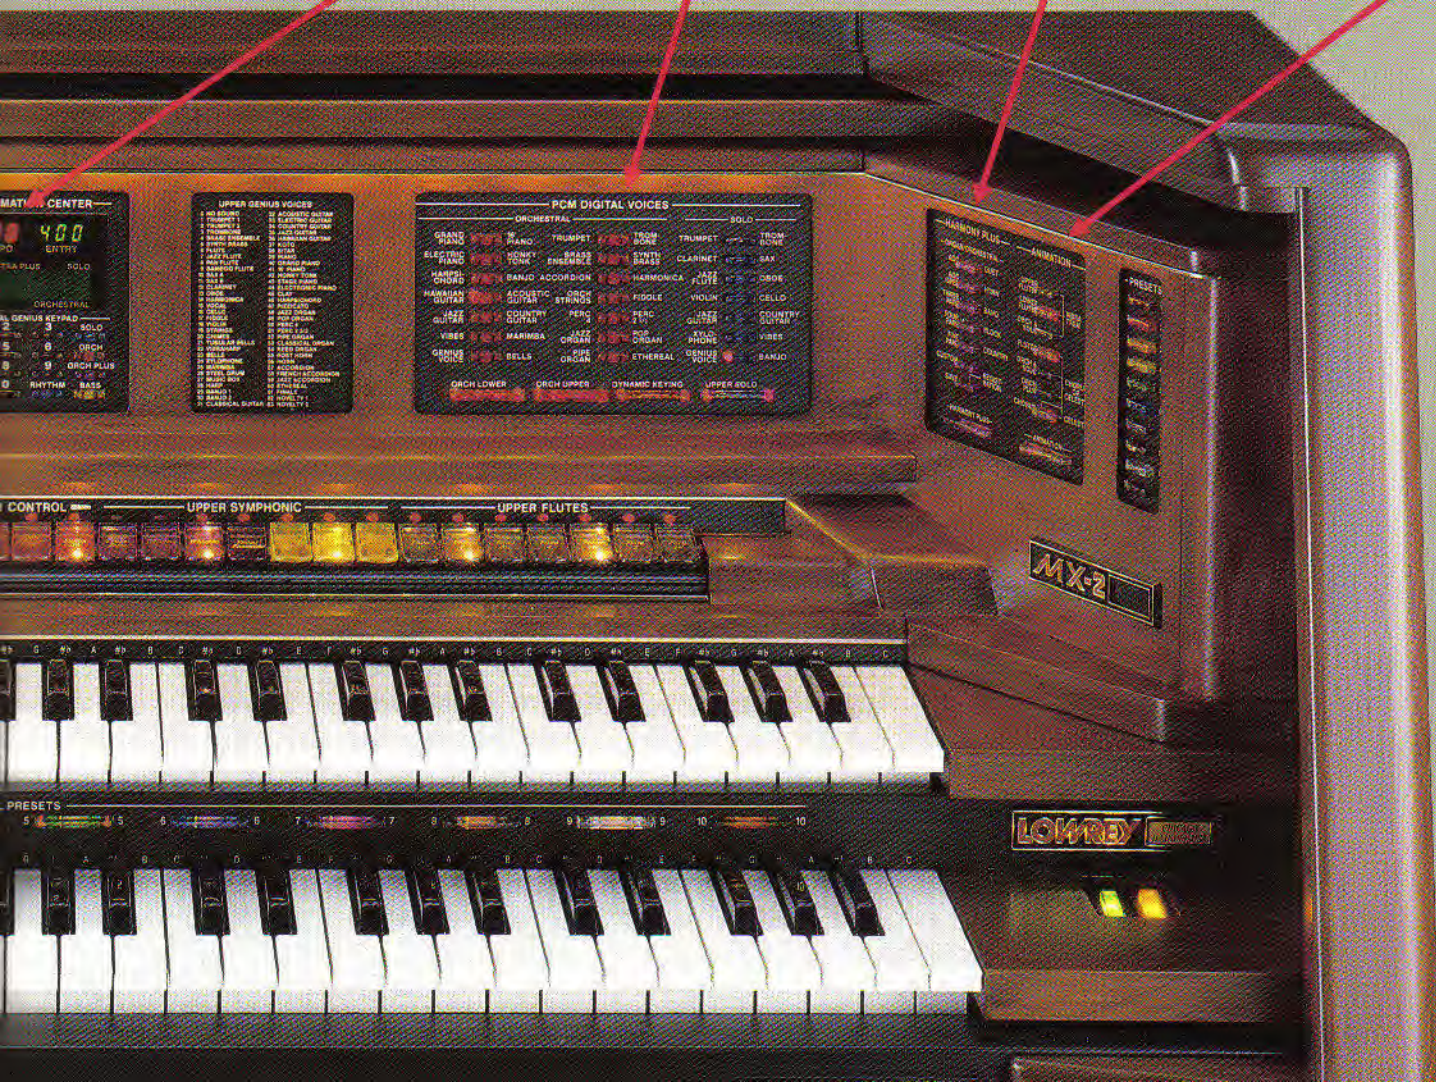

The MX-2 features all digital voicing. For you the player, this means the absolute clearest, crispest authentic instrumental sounds ever from Lowrey. Lowrey's tradition of lush, warm flute tones has advanced into the 90's.

Harmony Plus

Harmony Plus adds the correct harmonizing notes to any melody note played. Select from A.O.C. (Automatic Organ Computer), A.O.C. Open, 3 part, 4 part, 5 part, Duet, Hymn, Band, Block and Country harmonies.

Animation

Simply stated, Animation adds motion and texture to musical tones. Add Vibra Trem effect to Upper Flutes, Lower Flutes and Orch & Solo voices, Chorus and Celeste effects can be added to Flutes, Orch & Solo and Orch Plus.

At Lowrey, we have been listening. What we have learned is that people want a Lowrey Organ today for the same reasons they have always wanted a Lowrey Organ. You have told us that you want an easy-to-play organ that produces great sounds.

The all-new Lowrey MX-2 is the direct result of your input. The MX-2 utilizes advanced digital technology. For you the player, this means unbelievably authentic musical sounds, a wide variety of fully-orchestrated rhythm accompaniment styles and easy to operate performance features that will make you sound like a pro.

Lowrey's MX-2 boasts a selection of 81 fully orchestrated rhythm patterns. An assortment of musical styles are available at the touch of a button. Professionally scored Introductions and Endings make you sound great. Lowrey's Rhythm Preset button sets the whole organ up for you. Press the Rhythm Preset button and select a rhythm style and you are ready to play. It is that easy.

Lowrey's MX-2 features "Golden Harp" which adds graceful arpeggios to your music. 12 Arpeggio sounds are available.

The MX-2, true to the Lowrey tradition, has numerous easy-play features. The Transpose feature lets you change the key you are playing in by simply pressing a button. 10 General Preset buttons make setting-up the MX-2 as easy as pressing one button. Music Chord System (MCS) allows you to play multi-finger chords with just one finger. Another easy play feature on the MX-2 is Harmony Plus. With Harmony Plus you can select from and play a variety of beautiful melody harmonies with just one finger.

With MCS and Harmony Plus you can sound great and have fun with just one finger from each hand!

Animation on the MX-2 adds texture to sounds by adding motion to the tone. Vibra Trem, Chorus and Celeste are featured. Digital Reverb adds depth and resonance to your music.

The MX-2's Music Recorder lets you record your performances and play them back later (even if you shut the organ off). You can save your performances and registrations on diskettes by utilizing the Disk Drive on the MX-2.

The Graphic Mixer on the MX-2 lets you customize your sound by controlling the volume of each section of the organ. The Graphic Mixer controls Symphonic, Orchestral, Solo, Bass/Pedal, Orchestration Plus and Lower volumes as well as Digital Reverb and Sustain levels.

Connections on the MX-2 include MIDI: IN, OUT, THRU; stereo headphone jack, microphone input jack and stereo input/output connections.
